SUMMARY

Full-stack developer who builds and runs production systems for small businesses: WhatsApp bots with AI order parsing, e-commerce catalogs, admin dashboards and SaaS apps. I own projects end to end, from data modelling and integrations (Gemini, Lalamove, Evolution API) to Docker-based deployment, CI and monitoring on a VPS. I run my own studio, Hal-Creative.

EXPERIENCE

Founder · Hal-Creative

2025 - Present

Run my own studio that builds, hosts and supports web systems, WhatsApp bots and SaaS for small businesses, including Karya Mandiri Dental and Yoyo Bolen.

Full-Stack Developer · Karya Mandiri Dental

2022 - Present

Built and run the company's whole digital system: a Next.js catalog and ordering site, a role-based admin dashboard, and a Gemini-powered WhatsApp bot, all in one monorepo deployed with Docker and CI to a single VPS.

Bot Developer & System Integrator · Yoyo Bolen

2023 - Present

Designed the WhatsApp ordering system that handles 100+ customer chats a day: AI order parsing, Lalamove delivery quotes and dispatch, OCR payment checks, and an admin dashboard for orders and stock.

SELECTED PROJECTS

Karya Mandiri Dental

karyamandiridental.cloud

Catalog site, admin dashboard and AI WhatsApp bot for a dental equipment supplier. One monorepo, 9 containers, CI-gated deploys to a single VPS.

Yoyo Bolen

yoyobolen.cloud

WhatsApp ordering for a home bakery: an AI bot takes orders, quotes delivery and checks payments. Handles 100+ customer chats a day.

Viewport Studio

github.com/prayersrain/viewport-studio

Free, open-source Chrome extension to preview any website on phones, tablets and desktops side by side. Up to 4 synced devices in one tab, with no debugger banner and no account.

Kapster.id

kapster.id

Operations SaaS for barbershops: booking, schedules, cashier, customers and reports in one system. Owner, cashier, admin and public booking apps on one NestJS API.

SKILLS

Languages	TypeScript, JavaScript, PHP, SQL
Front end	Next.js, React, Tailwind CSS, Vite
Back end	Node.js, Express, NestJS, Prisma, PostgreSQL, Redis, Supabase, CodeIgniter
AI & messaging	Gemini, Evolution API, Baileys, discord.js, Lalamove API
Infrastructure	Docker, Nginx, Linux VPS, GitHub Actions, PM2

EDUCATION

Software Engineering · SMKN 1 Kota Bekasi

2019 - 2022

Graduated with honors. Programming, databases and web development.
